## Things to prepare

1) Laptop with webcam, microphone, audio, battery to last 1.5 hrs. We encourage you to use a laptop / desktop (We do not encourage mobile phone as it has limited zoom functions and you won't be able to see everyone). At 6pm, enter the zoom virtual bar via [this link](#). You can familiarize yourself by joining a test room: <https://zoom.us/test>

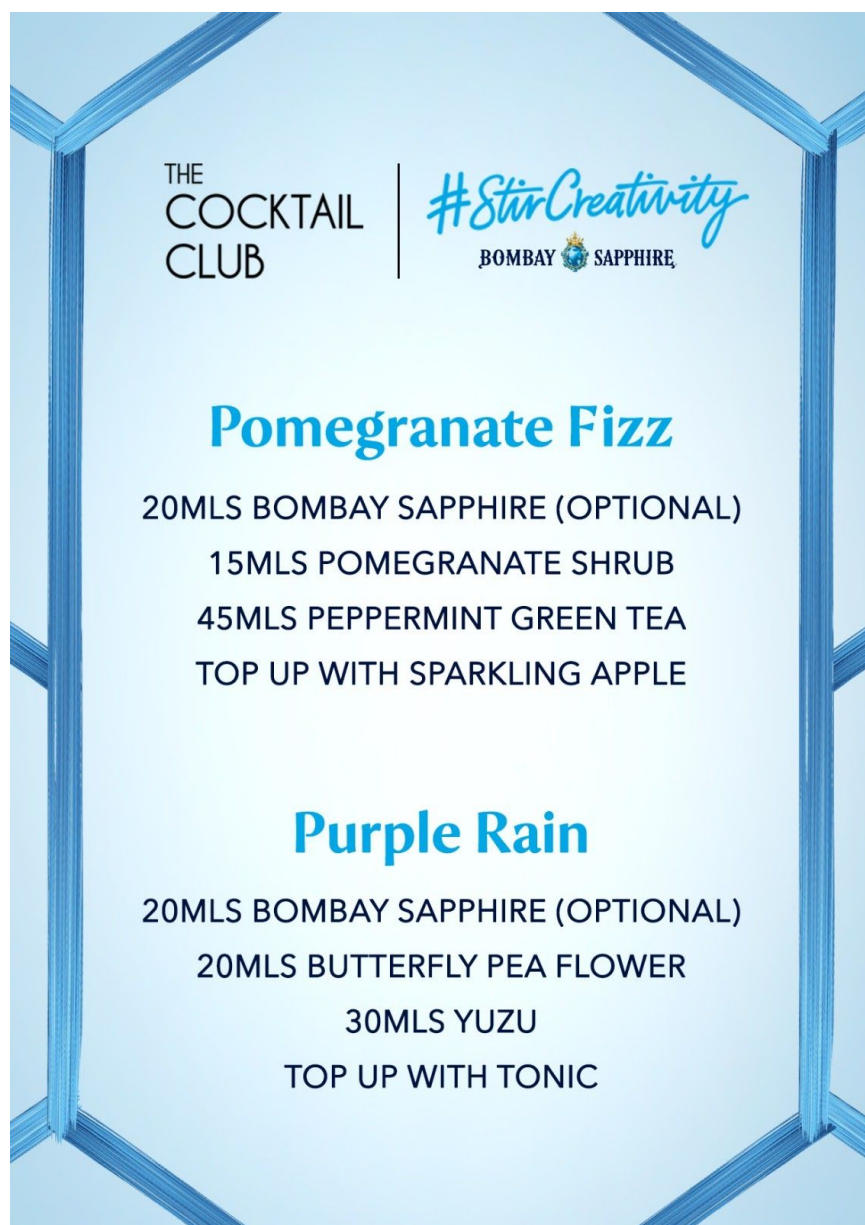

2) Clean table space, cloth, 2 tall glasses, 2 trays of ice (keep one tray in the freezer first to make sure we have sufficient ice throughout the session), all the items that are delivered to you

## Things to note

We encourage everyone to have their video on to “mingle” in this virtual bar. Feel free to dress up or put on some party lights to hype up the atmosphere!

We will be recording the session for the organizer’s internal reference to make any improvements for future sessions. It will not be shown to the public. We will be taking group photos of everyone raising their glasses, these photos will be for you. Say cheese!
